Sir,

I have the honor to invite your early attention to my letter no 382 P dated 8th instant and to state that so far nothing has been done to camp out the Barr Regiment.

When I visited the lines this morning three cases of plague were reported of which two were dead. It is really very surprising to say the least of it, that cases of plague should come to the knowledge of the commandant after death as was the case in the two fatal cases above alluded to. Both were recruits. Both were

absent yesterday at muster time. Their absence was reported to the Commandant by the Drill Officers and yet the former took no step whatever to ascertain the cause of absence. This Officer appears to me thoroughly incompetent and negligent in the discharge of his onerous duty. I would recommend that the Commandant be directed to muster every day twice (morning and evening) all his men to see that they are all in good health. An Hospital Assistant will be directed to be present at this muster. At this muster, enquiry should be made of every man about the health of the inmates of his house. An Officer may be deputed every night to enquire at every house about any illness that may occur which should be at once reported to the Sanitary Medical Officer. The house must be kept clean.

It is very necessary that very early steps should be taken to Camp at the Regiment as nothing short

of this 5 will check the fearful mor-
-ality now prevailing and I have
to request that you will kindly
pay this subject your very early
and best consideration.

I have the honor to be,
Sir,
Your most obedient Servant
